EUROPEAN UNION AVIATION SAFETY AGENCY (EASA) BLACKLIST OF TANZANIA AIR OPERATORS

On June 3, 2025, the European Union Aviation Safety Agency updated the EU Air Safety List, which includes airlines that are blacklisted from operating or are subject to operational restrictions within the European Union because they do not meet required safety standards.

In the publication, all air carriers certified in Tanzania have now been added to the blacklist and can no longer operate to/from or within the EU. The blacklisting has been interpreted to impact passengers to/from European Union where carriage includes Tanzanian carrier in the itinerary, even though the said carriers do not operate directly into/out of the European union.

The consequence of the blacklisting is that tour operators marketing Tanzania, have the obligation, as contracting party to notify passengers of the right of reimbursement or rerouting provided the passenger chooses not to take the flight. If the passenger opts to continue his/her journey as originally planned, tour operators will bear a strict safety obligation towards their contracted passengers.

Given the above, Kenya Airways wishes to advise its passengers travelling from/into EU Countries connecting Precision Airways (PW) that the following options are available.

Rerouting Option:

- Agents are advised to reroute passengers earlier booked on PW operated flights to Dare-es Salaam, Kilimanjaro or Zanzibar to the next available KQ operated flights.

- With authority of this Tariff Notice, Customers may change their travel to a different destination. Fare difference may apply in the case of change of destination.
